

PRS (Play Rehearsal Scheduler)

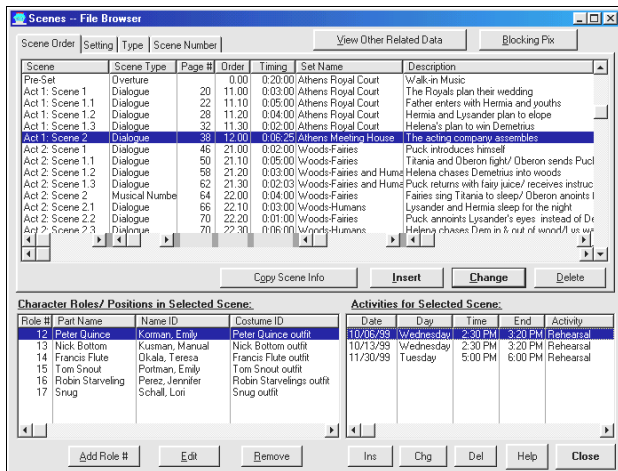

"A production book in your computer"

PRS is a time saving and easy-to-use theatre software program that will manage your show's numerous production

elements. It provides instant access to everything you need to know about your cast, crew and tech requirements, with multiple ways to view, sort, organize and report data.

- ❖ Scene copy feature speeds breakdown entry for similar scenes while allowing input changes.

- ❖ **PRS** is picture friendly and provides file management for script blocking diagrams and actor photos.

Rehearsals and Performances

- ❖ Rescheduling becomes a simple matter as **PRS** recalls scene data and automatically creates cast and crew lists for all your activities.
- ❖ Script notes and sound and music data provide instant cross-referencing information.

A director's dream tool, **PRS** provides ways to both view and print rehearsal schedules, scene info, set, costume, and prop information simultaneously. Download a demo version from our website at www.onsetsoftware.com and you will be able to see how **PRS** works using sample data from *A Midsummer Night's Dream* to illustrate the features of scene breakdowns, rehearsal scheduling and costume tracking, to name a few. You will find that you may now input, view and access data to orchestrate play information instantly.

Preparation

- ❖ Get started by organizing the cast and crew according to role, breaking down the script into scenes, and getting prepared for sufficient technical rehearsals. One-line scene descriptions, script page numbers, and lists of performers per scene organize the rehearsal process.
- ❖ The director can view the data and schedule a suitable timetable for rehearsal times. Cast and crew contact information as well as sound, set, costume and prop information lists are provided to be used as desired.
- ❖ Drop-down lists with smart-fill simplify data entry.
- ❖ More than 50 pre-defined reports available for printing.

- ❖ Automatically monitor prop and costume requirements and create category and vendor item lists.

And Beyond

- ❖ Locate archival production information rapidly without paging through script notes.
- ❖ Database can be saved electronically and used for future productions of the same show.
- ❖ Use existing cast and crew information to jump start data entry for your next production.

Minimum System Requirements

- Windows 95, 98, NT or 2K
- 24Mb RAM, 8Mb Hard Disk Space
